Terms & Conditions
Terms and Conditions for Use of Cisco Networking Academy Websites and Services
1. Background. The Cisco Networking Academy learning platforms are websites ("Websites") within the Cisco Networking Academy Program ("Program"). Cisco operates and provides access to a range of Program related websites and microsites accessible to users (including students, nonstudents and alumni) who have a Cisco Username and Passwords. Websites contain content relevant to the Program and are also designed to enable social networking and collaboration ("Services") among users. The Services enable a user to create personal profiles (each, a "Profile") that can be searched and viewed by other users. The Services also support discussion forums, chat, electronic messaging, survey tools, blogs, wikis or other collaborative tools that Cisco elects to make available in its discretion. Cisco may modify, enhance, restrict or terminate Websites and Services in its discretion at any time and without notice.
The Program operates in accordance with global privacy laws, including laws that impact children's privacy. Registration or use of the Program is not intended for children. For the purposes of the Program, we consider an individual to be a child if the applicable law limits the processing of an individual's personal data because the individual is under a certain age (for example, individuals under 13 years of
I have read and agreed to the terms & conditions. *
I would like to receive communications and updates about the program, including information about functionality and learning offerings from Cisco Networking Academy. I understand I can unsubscribe at any time.
By not subscribing you will not receive Cisco Networking Academy promotional communications, including updates and the latest news regarding netacad.com. You will still receive critical operational updates and updates about your learning journey and account status by email.

AVAILABLE LANGUAGES
العربية, 中文(简体), English, Español, Français, Português, Український

FREE | 2 HOURS | BEGINNER | SELF-PACED

Overview | **Curriculum**

Meet our innovative network simulation and visualization tool, Cisco Packet Tracer. This virtual lab is an interactive way to practice networking, IoT, and cybersecurity – no hardware required! This course introduces you to the Cisco Packet Tracer simulation environment. Learn how to use Cisco Packet Tracer to visualize and simulate a network using everyday examples. Practice your skills with interactive virtual lab activities, and hone your problem-solving skills, too. Get valuable tips and best practices and gain confidence to use this powerful tool in later courses or for your own practice.

Enroll to download Cisco Packet Tracer for free and get started today!
